PROFILE

Experienced Front-End Developer bringing forth expertise in design, development, testing and maintenance of websites. Equipped with a diverse and promising skill-set. Proficient in various platforms and languages. Savvy with the latest cutting edge development tools and procedures.

EMPLOYMENT HISTORY

CNC Operator/IT, Hexcel Corporation   Burlington, WA

Aug 2015 — Apr 2020

Operated a large 5-Axis CNC Router to machine Carbon Fiber core to tolerances within thousandths of an inch. Part-time worked in an office setting helping out with SharePoint projects, as well as devising some general IT solutions, mostly using VBA/Excel or Powershell, though occasionally using web technologies in the form of a single, local HTML file. Additionally, helped to create Engineering documentation, as well as gathering experiencing using CATIA V5 AutoCAD software.

EDUCATION

Web Development Certificate, Liberty University   Lynchburg, VA

Jan 2019 — Aug 2019

- 4.0 GPA
- Gained valuable business knowledge, including techniques for implementing lasting change
- Built an E-Commerce web app from scratch
- Compared benchmarks from PostgreSQL, MariaDB, Redis, and MongoDB in several settings
- Optimized images for the web
